

"Attaching a Document" Instructions

How to Upload Your Documents Properly

To ensure smooth and accurate processing of your documents, please follow these instructions carefully:

What to Upload

- Only include documents relevant to your matter. You may refer to the “**Documents Needed to Proceed**” handout for suggestions.
- Upload **one single PDF file** per document type (e.g., do **not** upload 20 separate pages for one contract).
- Ensure all pages are **in order** and **clearly legible**.

Examples of Accepted Document Types

- Lease Agreements
- HOA Governing Documents
- Property Title Documents
- Eviction and Lien Notices
- Construction and Purchase Contracts
- Warranties
- Correspondence
- Photographs

File Format

To ensure your documents are processed efficiently, please follow these formatting requirements:

- **Accepted Formats:** PDF (for documents) or JPG (for photographs) only
- **Scan Requirements:**
 - Must be **flat** — no shadows, creases, or curled edges
 - Must be **high resolution** — minimum **200 DPI** recommended for clarity

File Naming Convention

Please name each file using the following format: [Your Last Name] - [Document Type].pdf

Examples:

- Smith - Lease Agreement.pdf
- Johnson - HOA Agreement.pdf
- Martinez - Property Title.pdf
- Andrews - Contract.pdf

Avoid These Mistakes

-  Submitting multiple separate page files (e.g., Page1.pdf, Page2.pdf)
-  Using unclear file names like doc1.pdf or scan2025.pdf
-  Cutting off parts of pages or signatures

Recommended Tools to Combine PDFs

If you need to combine multiple pages into one PDF:

- [Adobe Scan](#) (iOS/Android)
- ILovePDF
- Smallpdf
- Office scanner with “combine to PDF” function

If you have any questions or trouble uploading, please contact us before submitting. Ensuring your file is complete and properly named helps us serve you faster and more effectively.
